Re Item I

Basis of the report

The documents mentioned herein are numbered in accordance with the order they appear in the International Search Report.

Re Item V

Reasoned statement with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

D1, D2 and D5 appear to disclose compounds according to the present claim 13. Compositions containing *inter alia* such compounds are thus anticipated as well (claims 7 and 8)(art.33(2) PCT).

D3 and D4 disclose analogous though different compounds for regulating plant growth. These documents do not anticipate the present claims, but one skilled in the art would have expected an analogous qualitative effect from compounds with analogous structure. Since no surprising effect of the claimed alternative to D3 and D4 has been shown so far, the subject-matter of the present claims 1-13 is considered to lack inventive step (art.33(3) PCT).
